

### **>If you already are a Certified Commercial Diver**

Individuals may possess commercial diving qualifications obtained outside the jurisdiction of the Ministry of Manpower (MOM), other than MOM's Level 1 and Level 2 certifications. Such individuals are advised to verify whether their qualifications are included in MOM's list of recognised foreign commercial diving certifications. This list is published in the document *Technical Notes: Surface Supplied Diving Equipment (SSDE) Diver*, Appendix C, available for download from the Workplace Safety and Health (WSH) Council website.

A condensed reference of recognised qualifications may also be found in the CDA(S) Guidance Document titled *Recognized Diver Certificates*, accessible via the "Downloads" section of the WSH Council website.

Where a foreign qualification is formally recognised by MOM, the holder thereof may commence or continue employment as a commercial diver in Singapore without the requirement to complete MOM's Level 1 and Level 2 commercial diving courses.
